"Allergic Cheilitis."

Belgrade, Srpski Arhiv za Celokupno Lekarstvo, Vol 91, No 6, June 1963, pp 623-626.

Abstract: [Authors' German summary modified] The above-named ailment is rare. It can be caused by various allergens, especially occupational ones but also long contact with hemp or silk. The two cases described in the article were occupational allergies, treated in different ways, viz., one patient was moved away from the allergen and given symptomatic treatment, while the other patient was not taken away from her job and was instead treated with "Subtivaccin." The therapeutic effect in both cases was favorable.

Three Yugoslav and four Western European references of recent date.

AUTHOR: Vučina, Leo, Doctor and Professional Assistant
(Nr 10 Bircaninova St., Beograd)
TITLE: Development of Pipeline Transport in Europe (Razvoj
cegovodnog transporta u Evropi).

PERIODICAL: Tehnika, 1959, Nr 3, pp 498-501 (YUG)

ABSTRACT: This article is a supplement to the article which appeared in "Tehnika", 1958, Nr 6. The author gives details of the existing pipelines in Western European countries, especially in West Germany, basing his data on the latest German technical sources. He also describes the economical and political problems which arise in connection with these pipelines, especially those traversing more than one country. There are 2 tables and 10 references of which 9 are German and 1 Yugoslav.

AUTHOR: Vučković, Josip, Engineer

TITLE: Plan Directives of the Petroleum Production Industry"

PERIODICAL: Nafta, 1960, Nr 2, pp 45-46

ABSTRACT:

In this article the author discusses problems connected with the Yugoslav petroleum production as well as the possibilities of their solution. According to the author the present petroleum production enterprises are engaged in various activities, including the production of petroleum, gas and liquid gas, depth drillings, construction of building projects, petroleum and gas transportation systems, repair shops, etc. In accordance with the directives of the economic development plan the "Lendava" and the "Jermenovci" type of petroleum are sold tax free. Prices of crude oils are determined by the Ured za cene (Pricing Office).

Card 1/2

Y/004/60/02/003/025
D0024/D3001

Plan Directives of the Petroleum Production Industry

At present crude-oil prices are determined chiefly by bargaining between production enterprises and petroleum refineries through the Udruženje za naftu (Petroleum Association). Recommendations of this Association are generally accepted by the Pricing Office. Further, the author suggests improvement of drilling operations, greater investments in the exploitation of petroleum and gas fields, thus contributing to the reduction of crude oil prices. There is 1 figure, 3 tables, 4 graphs and 1 set of graphs.

"Effect of Vigofac in Fattening Swine with Varying Levels of Animal and Plant
Proteins in their Feed."

Belgrade, Veterinarski Glasnik, Vol 19, No 12; 1965; pp 925-929.

Abstract [English summary modified]: Study of Pfizer's animal feed additive
Vigofac in 7 groups totaling 64 pigs. Improvement in body weight and feed use.
efficiency was pronounced on animals receiving marginally adequate feed, but
was least in those receiving good rations. Three tables, 1 Yugoslav and
3 Western references; ms rec 2 Nov 65.
